It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on

(a) Review of results for the first quarter ended 31 March 2008 as compared to corresponding quarter ended 31 March 2007

Sales analysed by business segment for the quarter under review is as follows: -

	Q1 2008 S\$'000	Sales mix %	Q1 2007 S\$'000	Sales mix %
Proprietary Solutions	5,879	95	873	36
Distribution	89	1	1,359	57
Operation Support Systems (OSS)	250	4	166	7
Total	6,218	100	2,398	100

The Group has recorded a net profit after tax of S\$0.5 million for the quarter ended 31 March 2008, as compared to a net loss of S\$1.46 million of the corresponding quarter in 2007. This marks a significant improvement of S\$1.9 million in the bottom line of the Group.

The improvement in Group's net profit after tax is attributable to the significantly improved revenue for the period ended 31 March 2008, an increase of S\$3.8 million, as compared to the revenue achieved for the period ended 31 March 2007. This improvement in Group revenue is attributable to higher project revenues achieved by the Proprietary Solutions segment - in particular, project revenue relating to the Mobile Number Portability Clearinghouse project in Malaysia. However, the Distribution segment of the Group recorded a significant decline in revenue in the period under review as compared to the period ended 31 March 2007, mainly due to downsizing of this segment's operations in conjunction with the Group's decision to consider exiting from the distribution business

The higher gross profit achieved by the Group for the period ended 31 March 2008 is mainly driven by the higher revenue achieved by its Proprietary Solutions segment.

Backed by an improvement in revenue, lower total operating expenses and higher share of profit from associated company (of S\$0.2 million for the period ended 31 March 2008), the Group has recorded improved earnings before interest, tax, depreciation and amortisation ("EBITDA") of S\$1.1 million for the period under review. In comparison, the Group recorded a loss before interest, tax, depreciation and amortisation ("LBITDA") of S\$0.6 million for the period ended 31 March 2007.

(b) Review of the Group's financial position as at 31 March 2008 as compared to the Group's financial position as at 31 December 2007

Current assets decreased marginally by S\$0.5 million or 2% from S\$28.5 million as at 31 December 2007 to S\$28.0 million as at 31 March 2008. This decrease is mainly attributable to the decrease in trade and other receivables as a result of receipts from trade receivables.

Total non-current assets of the Group decreased by S\$1.3 million or 16%, compared to the balance as at 31 December 2007 of S\$8.0 million. This decrease is mainly attributable to the lower investment in an associated company as a result of dividend distributed by the associated company, depreciation charged for Plant and Equipment and amortisation charged on intangibles for the period under review.

Total liabilities of the Group decreased by S\$2.1 million (or 14.5%) as at 31 March 2008, from S\$14.4 million as at 31 December 2007. The decrease is mainly due to the reduction in trade and other payables by S\$3.0 million as a result of settlement made. The reduction is however offset by the increase in short term borrowings by approximately S\$0.9 million to finance the working capital of the Group.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

No profit forecast has been issued for the financial year under review.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Barring any unforeseen circumstances, the Directors remain cautiously optimistic about the Group's long-term prospects.

The Group will continue to strive towards maintaining profitability guided by strategies that have been mapped out. Focus will continue to be given on growing the Proprietary Solutions and OSS business segments. This will involve, among others, continuously strengthening the Group's position within the following businesses and markets:

- * mobile data and value-added services ("VAS") solution/applications and businesses;
- * recurring revenue streams via managed services business; and
- * participating in the growth of developing and emerging telecommunications markets such as South East Asia, South Asia and the Middle East.

The Group is contemplating exiting the non-profitable distribution business. This will enable the Group to redirect its resources for profitable growth in other existing business segments.

The Directors believe that the Group's efforts to execute its three key strategies for growth and development are showing some early results. On the back of the positive results achieved during the quarter, the Directors believe that the Group will continue to make progress in improving its future performance and financial results.
