8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial year reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial year reported on

**Review of results for the first quarter ended 31 March 2007 as compared to corresponding quarter ended 31 March 2006**

Sales analysed by business segment for the quarter under review is as follows: -

	Q1 2007 S\$'000	Sales mix %	Q1 2006 S\$'000	Sales mix %
Proprietary Solutions	873	36	2,095	66
Distribution	1,359	57	1,053	33
Operation Support Systems (OSS)	166	7	32	1
<b>Total</b>	<b>2,398</b>	<b>100</b>	<b>3,180</b>	<b>100</b>

The Group's Q1 2007 revenue recorded a decrease of S\$0.8 million or 25% compared to the corresponding period last year. The decrease is mainly attributable to the more than 50% decline in sales from Proprietary Solutions segment despite the revenue improvement recorded by both the Distribution and OSS business segments.

The Group's Proprietary Solutions business' sales results in Q1 2007 was adversely affected by project implementation delays. Two major Proprietary Solutions projects with Tier-1 telco end-customers that were expected to be completed during this quarter have been delayed and are now expected to be completed in the later part of the year.

Sales generated by the Group's Distribution business recorded an increase of S\$0.3m or 29% in the current quarter compared to the corresponding quarter in 2006. This improvement in sales is attributable to the successful completion of a large, one-off project involving S\$0.3m worth of Telecom products.

The Group's Operation Support Systems business recorded marginal sales of \$0.2m in Q1 2007 as this business segment continues to be engaged in the early stage of the sales cycle to secure contracts for its systems and services.

Operating expenses for the period ended 31 March 2007 recorded an improvement of approximately S\$0.5mil or 19% reduction in expenses as compared to the corresponding period in 2006, which is in line with the Group's continued effort in its cost rationalisation exercise undertaken in 2006.

As a result of the lower revenue achieved for the year, the Group incurred a loss before interest, tax, depreciation and amortisation ("LBITDA") of S\$0.7million for the period ended 31 March 2007. In comparison, the Group recorded loss before interest, tax, depreciation and amortisation ("LBITDA") of S\$0.5 million for the period ended 31 March 2006.

**Review of the Group's financial position as at 31 March 2007 as compared to the Group's financial position as at 31 December 2006**

Current assets decreased by S\$0.5million or 3% from S\$19.3 million as at 31 December 2006, to S\$18.8 million as at 31 March 2007. This was mainly due to a decrease in trade and other receivables as a result of lower sales recorded during the financial period which the decrease has been partially offset by the increase in inventory of S\$0.4 million. The increase in inventory is mainly attributable to additional purchased in anticipation of new projects for roll out in Q2 2007.

The decrease in total non-current assets by S\$0.8 million was mainly attributable to depreciation charged for Plant and Equipment, amortisation charged on intangibles as well as reduction in non-current trade receivables.

Total liabilities decreased from S\$6.94 million as at 31 December 2006 to S\$6.93 million as at 31 March 2007, representing a reduction of approximately S\$0.01 million or 0.1%. This was mainly due to a decrease in trade and other payables as a result of reduction in purchases. The decreased was however partly offset by the increase in short term borrowings during the period.

**9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results**

No profit forecast has been issued for the financial year under review.

**10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months**

Barring any unforeseen circumstances, the Directors remain cautiously optimistic about the Group's long-term prospects.

The Directors believe that the Group, having achieved significant progress in rationalising and streamlining of the operations of the Group, is well positioned to capture growing opportunities in the telecommunications market under its prevailing development strategies. These three key strategies are:

- \* To focus and grow mobile data and value-added services ("VAS") business areas;
- \* To expand and improve the recurring revenue streams via managed services; and
- \* To grow by participating in the growth of developing and emerging telecommunications markets such as South East Asia, Indochina, South Asia and the Middle East.

The Group will continue to review its long term strategies and strive towards achieving its objectives of delivering profitable and sustainable growth.
