**Review of results for the third quarter ended 30 September 2011 as compared to corresponding quarter ended 30 September 2010**

*Group Revenue*

The Group recorded consolidated revenue of S\$3.2 million for the quarter ended 30 September 2011 ("Q3 2011"), representing a decrease of 23% against revenue recorded in the corresponding quarter of 2010 ("Q3 2010"). The decline in revenue recorded was mainly due to the lower revenue recorded by both OSS BU and VAS BU.

The decline in VAS BU revenue from S\$1.3 million in Q3 2010 to \$0.8 million in Q3 2011 was the result of lower system sale contract revenues being secured this quarter. The significantly lower revenue generated by the Group and VAS BU from the 'Others' region in Q3 2011 meanwhile, is directly related to the subsidiary in Hong Kong that was disposed of in the previous quarter, which now, no longer contributes to VAS BU and Group revenue. In contrast to the decline in SEA and MEA revenues, VAS BU's revenue from the SA region showed encouraging growth of 52% against Q3 2010 results – an improvement driven by a sharp rise in managed service contract revenues.

OSS BU, which also posted lower revenue for the quarter, recorded revenue of S\$0.8 million in Q3 2011, a decline of 47% from the S\$1.5 million achieved in Q3 2010. Like VAS BU, OSS BU's decline in Q3 2011 revenue was due to significantly lower system sale revenues being secured this quarter compared to Q3 2010.

As a result of the significantly lower system sale revenues of VAS BU and OSS BU, and with the latter operating primarily in the SEA region, the contribution made by the SEA region to the Group's Q3 2011 revenue is almost 22% lower compared to Q3 2010. SEA nevertheless remains the largest contributing region to Group revenue in Q3 2011, followed by MEA and SA respectively.

OHQ BU recorded considerably higher revenue of S\$0.06 million in the current quarter versus nearly nil in Q3 2010, owing to the rental income contribution from the Group's property investment which was completed earlier this year being assigned to this BU.

*Group Gross Profit and Gross Profit Margins*

The Group achieved gross profit of S\$1.8 million and a gross profit margin of 56% in the current quarter, as compared to the S\$1.8 million and 43% realised in Q3 2010 respectively. Gross profit in absolute terms was maintained this quarter in spite of lower total revenue being recorded, arising from the higher overall gross profit margin achieved by the Group.

The improvement in overall gross profit margin of the Group is attributable to the more favourable sales mix achieved for system sale contract revenues in Q3 2011, which saw TECH BU and VAS BU system sale contracts - that yield higher gross profit margins than their OSS BU counterparts - constitute the majority of the Group's system sale contract revenues. This sales mix resulted in the gross profit margin on system sale contract revenues rising from 21% in Q3 2010 to 60% in Q3 2011. Gross profit margin on managed service contract revenues, in contrast, decreased marginally from 63% in Q3 2010 to 54% in Q3 2011, due to higher direct costs incurred in the operation and support of these contracts during Q3 2011. This decline in margin on managed service contract revenues, however, did not more than offset the positive effect on overall Group gross profit margin, of the significantly higher system sale contract gross profit margin in Q3 2011.

*Group Net Profit and EBITDA*

On the back of higher overall gross profit margin, and in spite of lower consolidated revenue, the Group recorded net profit of S\$0.5 million and EBITDA of S\$0.8 million in Q3 2011. These net profit and EBITDA results are flat against Q3 2010 net profit and EBITDA results of S\$0.5 million and S\$0.8 million respectively.

(1) System Sale – this refers to contracts that involve the outright purchase by customers of systems comprising the Group's products and technologies, and where these systems are in turn delivered as turnkey solutions. The scope of work for a system sale contract includes system design, implementation, testing and commissioning services.

(2) Managed Service – this refers to contracts that involve the provision of both systems comprising the Group's products and technologies as well as the Group's professional services, on a recurring, revenue sharing, software-as-a-service, pay-per-use or monthly or quarterly fixed and variable fee basis. Also treated as a managed service contract are system maintenance and technical support contracts with existing customers of the Group.

**Review of results for the nine months period ended 30 September 2011 as compared to corresponding period ended 30 September 2010**

*Group Revenue*

The Group recorded consolidated revenue of S\$10.4 million for the 9 month period ended 30 September 2011 ("9M 2011"), a decrease of 14%, against revenue achieved in the corresponding period ended 30 September 2010 ("9M 2010"). The decline in revenue recorded for 9M 2011 is attributable to lower revenue recorded by both VAS and OSS BU, which combined, achieved S\$5.9 million in revenue versus S\$8.0 million in 9M 2010. TECH BU and OHQ BU, in contrast, showed a small improvement in revenue amounting to S\$0.4 million, that partly offset the decline in VAS BU and OSS BU revenues. TECH BU secured higher system sale revenues (mainly from SEA region) in 9M 2011 while OHQ BU benefited from the rental income generated by the investment property acquired by the Group earlier in the year.

VAS BU's revenue for 9M 2011 of S\$2.2 million, as compared S\$2.9 million for 9M 2010, is due to lower system sale contract revenues. The lower revenue generated by the Group and VAS BU from the 'Others' region in 9M 2011 meanwhile, is directly related to the subsidiary in Hong Kong that was disposed of in the previous quarter, which now, no longer contributes to VAS BU and Group revenue. In contrast to the decline in SEA and MEA revenues, VAS BU's revenue from the SA region for 9M 2011 showed encouraging growth of 82% against 9M 2010 results – an improvement driven by a sharp rise in managed service contract revenues.

OSS BU, which also posted lower revenue for the period, recorded revenue of S\$3.7 million in 9M 2011, a decline of 26% from the S\$5.0 million achieved in 9M 2010. Like VAS BU, OSS BU's decline in 9M 2011 revenue was due to significantly lower system sale revenues being secured in this period, compared to 9M 2010.

As a result of the lower system sale revenues of VAS BU and OSS BU, and with the latter operating primarily in the SEA region, the contribution made by the SEA region to the Group's 9M 2011 revenues is 12% lower compared to 9M 2010. SEA nevertheless remains the largest contributing region to Group revenue in 9M 2011, followed by MEA and SA respectively.

OHQ BU recorded considerably higher revenue of S\$0.19 million in the current period versus nearly nil in 9M 2010, owing to the rental income contribution from the Group's property investment which was completed earlier this year being assigned to this BU.

*Group Gross Profit and Gross Profit Margins*

The Group achieved gross profit of S\$5.4 million and a gross profit margin of 52% in the current period, as compared to the S\$5.6 million and 47% realised in 9M 2010 respectively. Group gross profit in 9M 2011 did not decline by the same magnitude as consolidated revenue, arising from the higher overall gross profit margin achieved by the Group.

The improvement in overall gross profit margin of the Group is attributable to the more favourable sales mix achieved for system sale contract revenues in 9M 2011, which saw TECH BU and VAS BU system sale contracts - that yield higher gross profit margins than their OSS BU counterparts - constitute the majority of the Group's system sale contract revenues. This sales mix resulted in the gross profit margin on system sale contract revenues rising from 25% in 9M 2010 to 33% in 9M 2011. Gross profit margin on managed service contract revenues, in contrast, decreased marginally from 66% in 9M 2010 to 63% in 9M 2011, due to higher direct costs incurred in the operation and support of these contracts during 9M 2011. This decline in margin on managed service contract revenues, however, did not more than offset the positive effect on overall Group gross profit margin, of the significantly higher system sale contract gross profit margin in 9M 2011.

*Group Net Profit and EBITDA*

On the back of higher overall gross profit margin, and in spite of lower consolidated revenue, the Group recorded net profit of S\$1.5 million and EBITDA of S\$2.2 million in 9M 2011. These net profit and EBITDA results are marginally lower compared to 9M 2010 net profit and EBITDA results of S\$1.7 million and S\$2.3 million respectively.

**Review of the Group's financial position as at 30 September 2011 as compared to the Group's financial position as at 31 December 2010**

Current assets decreased to S\$22.5 million as at 30 September 2011 (a decline of S\$1.9 million or 8%) from S\$24.4 million as at 31 December 2010. This decrease was mainly due to the decrease in cash and cash equivalents of S\$1.4 million arising from payment of consideration amounting to S\$3.2 million for the investment property acquired earlier in the year.

Total non-current assets of the Group increased by S\$0.9 million or 8%, from S\$11.2 million as at 31 December 2010 to S\$12.2 million as at 30 September 2011. This increase is attributable mainly to the acquisition of the above-mentioned investment property. This increase is however offset by the decrease in non-current receivables as a result of collection of receivables and the reclassification of a trade receivable from non-current to current.

Total liabilities of the Group decreased by S\$1.5 million (or 24%) from S\$6.3 million as at 31 December 2010 to S\$4.7 million as at 30 September 2011. The decrease was mainly due to a reduction in trade and other payables.

**Review of the Group's cash flow for the quarter and nine months period ended 30 September 2011 as compared to the corresponding periods ended 30 September 2010**

The Group's cash from operations for Q3 2011 was S\$0.3 million, a decrease of 54% as compared to cash generated from operations of S\$0.7 million in Q3 2010. This decrease is attributable mainly to payment made against the Group's account payables. The Group's cash from operations for 9M 2011 was S\$2.1 million, a decrease of 51% as compared to cash from operations of S\$4.3 million in 9M 2010. This decrease was primarily due to lower account receivables of the Group at the beginning of period under review as compared to the prior year.

Operating cash flow before working capital changes for Q3 2011 increased to S\$0.4 million as compared to S\$0.2 million for Q3 2010. This increase in operating cash flow was mainly due to higher profit before tax of the Group in Q3 2011 of S\$0.6 million as compared to profit before tax of S\$0.5 million in Q3 2010. Operating cash flow before working capital changes for 9M 2011 decreased to S\$1.2 million as compared to S\$1.3 million for 9M 2010. This decrease in operating cash flow was mainly due to lower profit before tax of the Group in 9M 2011 of S\$1.5 million as compared to profit before tax of S\$1.7 million in 9M 2010.

**9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

No profit forecast has been issued for the financial period under review.

**10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

The Group will continue to execute its key strategies to achieve the objectives as described below:

• **Defend Existing Businesses**

The market position of the existing businesses of the Group will be defended by nurturing further growth in managed service revenues. This will be driven by the continued enhancement of our capabilities in value-added-service creation, development and management. The Group's sales and distribution infrastructure to originate and secure these managed service opportunities in all our regions of focus will also continue to be strengthened.

• **Re-Establish Growth Path**

The Group will re-establish its growth path organically, and by way of acquisition of and/or strategic investment in complementary businesses. Building up a larger base of recurring revenue will continue to be a key focus of the Group's development strategy to ensure sustainable profitability and profit growth. The proposed acquisition of a further 60% interest in the Group's associate, Ahead Mobile Sdn Bhd - the completion of which is subject to shareholders' approval - is expected to further the Group's strategy to drive future growth and profitability through growth in managed service revenue.

The Directors and management are optimistic of extending the Group's track record of profitable performance, but expect the final quarter of 2011 to continue to be challenging due to the following factors:

- (a) Intensified competition for many of the Group's more mature products and technologies;
- (b) Pressure on the Group's capacity to recruit and retain suitable human capital to support growth and development plans partly due to increased competition for talent in all its regions of focus; and
- (c) Changes in management and ownership of and/or the strategic emphasis at the Group's existing and prospective mobile network operator customers, potentially affecting their technology investment plans, or hampering the progress of imminent or existing system implementation projects.
