Revenue contribution from a single region is disclosed separately when it exceeds 20% of the group's revenue.

Review of performance, the factors leading to any material changes in contributions to turnover and earnings by the business or geographical segments.

Unifiedcomms recorded a higher loss after tax in 2023 as compared to 2022. This was mainly due to lower revenue from managed service contracts in SEA region and higher impairment loss on goodwill recorded in 2023.

GlobeOSS recorded a decline in profit after tax in 2023 as compared to 2022. This was mainly due to the lower revenues from both system sale contracts and managed service contracts in SEA region.

Captii Ventures recorded a higher loss after tax in 2023 as compared to 2022. This was mainly due to higher fair value loss on its venture investment portfolio in 2023.

Others recorded a lower loss after tax in 2023 as compared to 2022. This was mainly due to lower impairment loss on investment in a subsidiary recorded in 2023.

10.1. Fair value measurement

The group classifies financial assets measured at fair value using a fair value hierarchy which reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- a) Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- b) Inputs other than quoted prices included within Level 1 which are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- c) Inputs for the assets or liability which are not based on observable market data (unobservable inputs) (Level 3)

For fair value measurements (Level 3) recognised in the statement of financial position, the group adopted the following valuation methodologies in estimating the fair values of the investments:

- a) Cost approach;
- b) Option Pricing Model; and
- c) Implied Enterprise Value

The group has the policy to regularly assess and evaluate the appropriate valuation methodologies in ascertaining the fair value of the investments.

The following table presented the assets measured at fair value:

11.2 Intellectual property

Intellectual property comprises rights and titles relating to mobile software.

11.3 Goodwil

Goodwill acquired through business combination has been allocated to its subsidiaries, Unified Communications Pte Ltd, Postpay Asia Sdn Bhd, Postpay Sdn Bhd, Postpay Technology Sdn Bhd, Adzentrum Sdn Bhd, Unified Communications (Private) Limited and Ahead Mobile Sdn Bhd for the purpose of impairment testing. The carrying amount is disclosed above.

An impairment loss is the amount by which the carrying amount of an asset or a cash-generating unit ("CGU") exceeds its recoverable amount. The recoverable amount of an asset or a CGU is the higher of its fair value less costs of disposal or its value-in-use. The recoverable amount of the CGU has been measured based on the value-in-use method

The value-in-use was determined by management using discounted cash flows to be generated from the continuing use of the CGU. Value in use as at 31 December 2023 was determined similarly to the 31 December 2022 goodwill impairment test, and was based on the following key assumptions:

	As at	As at
Unobservable inputs	31/12/2023	31/12/2022

The fair value of the investment property was measured at the end of every year based on the highest and best use method to reflect the actual market state and circumstances as of the end of the reporting year. The fair value was based on a valuation made by an external, independent and qualified professional valuer. There has been no change to the valuation technique during the period/year.

For fair value measurements categorised within Level 3 of the fair value hierarchy, a description of the valuation techniques and the significant other observable inputs used in the fair value measurement are as follows

OTHER INFORMATION

1. Review

The condensed consolidated statement of financial position of Captii Limited and its subsidiaries as at 31 December 2023 and the related condensed consolidated profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the financial period ended and certain explanatory notes have not been audited or reviewed.

2. Review of performance of the group

2.1 Review of performance of the group for the financial year ended 31 December 2023 as compared to corresponding financial year ended 31 December 2022

Group revenue

The group recorded consolidated revenue of S\$18.281 million for the financial year ended 31 December 2023 ("2023"), a 21.4% decrease against the revenue recorded in the corresponding financial year ended 31 December 2022 ("2022"). The decline in group revenue for 2023 is attributable to lower revenue recorded by both Unifiedcomms and GlobeOSS.

Unifiedcomms recorded revenue of S\$11.743 million in 2023, a decrease of 21.4% from the S\$14.935 million recorded in 2022. This decrease in revenue was due to lower managed service contract revenues.

GlobeOSS recorded revenue of S\$6.538 million in 2023, a decrease of 21.4% from the S\$8.314 million recorded in 2022. This decrease in revenue was due to lower system sale and managed service contract revenues.

The group's sales mix in 2023 showed an decrease in the proportionate contribution of revenue of a recurring nature, with revenue from managed service contracts representing 72.3% of the group's total revenue in 2023 as compared to 73.1% in 2022. The lower contribution of managed service contracts to the group's sales mix in 2023 is mainly attributable to the decrease in managed service contract revenues of the group, which declined by 22.1% from \$\$16.986 million in 2022 to \$\$13.224 million in 2023.

Gross profit and gross profit margins

With the lower revenue recorded in 2023, the group recorded lower gross profit of S\$8.515 million, a decrease of 24.7% from the S\$11.302 million realised in 2022. In addition, gross profit margin had decreased from 48.6% in 2022 to 46.6% in 2023.

The decrease in group gross profit margin is mainly attributable to the lower gross profit margin recorded on the group's system sale contract revenues, which decreased to 55.2% in 2023 from 61.2% in 2022. This was mainly due to lower Unifiedcomms system sale contracts gross profit margin in 2023, which caused by higher third-party component costs incurred in 2023.

The group's gross profit margin on managed service contract revenues decreased from 44% in 2022 to 43.3% in 2023. This decrease in gross profit margin was mainly due to higher third-party costs on certain managed service contracts.

Interest income

The group recorded interest income of S\$0.169 million in 2023, flat against what was recorded in 2022.

Other gains and other item of expense

The group recorded net total expenses of S\$19.972 million in 2023, 42.7% higher than the S\$14 million incurred in 2022. This is mainly attributable to:-

- * Higher fair value loss of S\$6.773 million assessed on the group's venture investment portfolio in 2023 as compared to the fair value loss of S\$2.074 million recorded in 2022; and
- * Higher impairment loss on goodwill of S\$4.2 million relating to the acquisition of Ahead Mobile Sdn Bhd in 2012 as compared to impairment on goodwill of S\$2.8 million recorded in 2022.

This impairment loss represented the amount by which the carrying amount of cash-generating unit ("CGU") had exceeded its recoverable amount. The lower CGU's recoverable amount for 2023 as compared to 2022 was caused by certain managed services contracts (under the CGU) that are now believed to produce lower than expected profitability and returns. This impairment loss has no cash impact.

The above impact was partly mitigated by lower administrative expenses recorded in 2023, in relation to lower corporate personel costs.

Net (loss)/profit and (LBITDA)/EBITDA

The group recorded a net loss of S\$11.717 million and LBITDA of S\$10.539 million in 2023 as compared to S\$3.244 million in net loss and S\$1.601 million in LBITDA recorded in 2022. The higher net loss and LBITDA results recorded in 2023 are mainly attributable to the flow-down effects of lower revenue, lower gross profit margin and higher net total expenses.

2. Review of performance of the group (continued)

2.2 Review of the group's financial position as at 31 December 2023 as compared to the group's financial position as at 31 December 2022

Non-cash current assets of the group decreased from S\$14.65 million as at 31 December 2022 to S\$13.295 million as at 31 December 2023. This 9.2% decrease in non-cash current assets was mainly due to a decrease in trade and other receivables as a result of lower revenue recorded.

Total non-current assets of the group decreased from S\$35.261 million as at 31 December 2022 to S\$23.815 million as at 31 December 2023. This decrease of 32.5% in non-current assets is attributable to:-

- * Decrease in venture investments of the group, following a reduction in fair value of S\$6.773 million in the group's venture investment portfolio recorded as other financial assets; and
- * Impairment loss on goodwill (classified as intangible assets) amounting to S\$4.2 million.

Total liabilities of the group decreased from S\$6.427 million as at 31 December 2022 to S\$5.407 million as at 31 December 2023. This 15.9% decrease in total liabilities is attributable to the decrease in trade and other payables following repayments made in the reporting year.

2.3 Review of the group's cash flow for the financial year ended 31 December 2023 as compared to the corresponding year ended 31 December 2022

The group's net cash flow from operations for 2023 was S\$0.261 million, in contrast with the net cash flow used in operation of S\$0.186 million for 2022. This increase was primarily due to lower working capital incurred of S\$0.173 million for 2023, as compared to S\$3.474 million for 2022, as higher repayment was made to the trade and other payables in 2022.

The group's net cash flow used in investing activities for 2023 was \$\$0.522 million, in contrast with the net cash flow from investing activities of \$\$2.021 million in 2022. This was primarily due to lower proceeds from the disposal of a venture investment in 2023 as compared to 2022.

The group's net cash flow used in financing activities for 2023 amounted to S\$1.081 million as compared to S\$0.605 million for 2022. The higher net cash used in financing activities was mainly due to higher repayment of borrowings in 2023.

3. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

No profit forecast has been issued for the financial period under review.

4. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The economic uncertainty due to geo-political tensions, supply chain disruption, and rising inflation and interest rates, especially in the group's regions of focus, continue to weigh on the minds of management and the directors of the group when considering the outlook for the next twelve months.

The operations of Unifiedcomms and GlobeOSS in the financial year under review had been minimally impacted by geo-political tensions and supply chain disruption. However, due to the diminished expected performance of certain managed service contracts the value of Unifiedcomms as a CGU was adversely affected. The change in user behaviour in certain Unifiedcomms applications services, followed by the intensified pricing pressure within the telecommunication industry had directly and indirectly impacted the expected profitability of these managed service contracts, resulting in a significant reduction in the valuation of Unifiedcomms as a CGU in 2023. With the said lower CGU valuation, an impairment loss on goodwill of \$\$4.2 million in relation to this business was provided and reflected in the financial year under review, though this impairment loss has no cash flow impact to the group.

On the business front, both Unifiedcomms and GlobeOSS contracts in-hand continue to be progressed and management of the group are hopeful that new projects and initiatives requiring our products and services, will continue to be pursued by customers. The possibility remains however, that larger system sale contracts and certain managed service contracts that have yet to be committed in the financial year under review, may be further deferred, or even abandoned entirely if macroeconomic and industry conditions worsen or do not improve significantly enough.

At Captii Ventures, the group's venture investment business, the valuation of start-ups continues to be challenging. Such an environment for business market valuations for some of our investees had resulted in a substantial reduction in the fair value of Captii Ventures' investment portfolio, translating to a fair value loss of S\$6.773 million in the financial year under review.

Against this negative macroeconomic backdrop for the future, the group remains optimistic and will continue to work closely with customers and investees, to minimise the negative impact of economic uncertainty on group financial performance.
