The group's revenue can be divided into revenue generated from two types of contracts, as described below:

(a) System sale – this refers to contracts that involve the outright purchase by customers of systems comprising the group's products and technologies, and where these systems are in turn delivered as turnkey solutions. The scope of work for a system sale contract includes system design, implementation, testing and commissioning services.

(b) Managed service – this refers to contracts that involve the provision of both systems comprising the group's products and technologies as well as the group's professional services, on a recurring, revenue sharing, software as-a-service, pay-per-use or monthly or quarterly fixed and variable fee basis. Also treated as managed service contracts are system maintenance and technical support contracts with existing customers of the group.

### 9.1. Fair value measurement

The group classifies financial assets measured at fair value using a fair value hierarchy which reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- Inputs other than quoted prices included within Level 1 which are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- Inputs for the assets or liability which are not based on observable market data (unobservable inputs) (Level 3)

For fair value measurements (Level 3) recognised in the statement of financial position, the group adopted the following valuation methodologies in estimating the fair values of the investments:

- Cost approach;
- Option Pricing Model; and
- Implied Enterprise Value

The group has the policy to regularly assess and evaluate the appropriate valuation methodologies in ascertaining the fair value of the investments.

The following table presented the assets measured at fair value:

#### 10.1 Deferred development costs

Deferred development costs mainly comprise staff costs, operating expenses and depreciation expenses for the development of the group's proprietary software and these have an average remaining amortisation period of 2 years (2025: 2 years).

#### 10.2 Intellectual property

Intellectual property comprises rights and titles relating to mobile software.

#### 10.3 Goodwill

Goodwill acquired through business combination had been allocated to its subsidiaries, Unified Communications Pte Ltd, Postpay Asia Sdn Bhd, Postpay Sdn Bhd, Postpay Technology Sdn Bhd, Adzentrum Sdn Bhd, Unified Communications (Private) Limited and Ahead Mobile Sdn Bhd for the purpose of impairment testing. The carrying amount is disclosed above.

An assessment is made annually whether goodwill has suffered any impairment loss based on the recoverable amount of the cash generating unit ("CGU"). The assessment process is complex and highly judgmental and is based on assumptions that are affected by expected future market or economic conditions. Judgement is required in identifying the CGU and the use of estimates as disclosed above. Actual outcomes could vary from these estimates. As at 31 December 2024, the goodwill was fully impaired.

For fair value measurements categorised within Level 3 of the fair value hierarchy, a description of the valuation techniques and the significant other observable inputs used in the fair value measurement are as follows

## OTHER INFORMATION

### 2. Review of performance of the group

#### **2.1 Review of performance of the group for the financial period ended 31 March 2026 as compared to corresponding financial period ended 31 March 2025**

##### *Group revenue*

The group achieved consolidated revenue of S\$4.841 million for the quarter ended 31 March 2026 ("Q1 2026"), representing a 35% increase compared with the corresponding quarter ended 31 March 2025 ("Q1 2025"). This increase was driven by the improved revenue performance from Unifiedcomms.

Unifiedcomms posted revenue of S\$3.897 million in Q1 2026, an increase of 73.1% from S\$2.251 million in Q1 2025. This growth in revenue was driven by higher system sale contract revenues.

In contrast, GlobeOSS recorded revenue of S\$0.929 million in Q1 2026, a decrease of 30.4% from S\$1.335 million in Q1 2025, primarily due to lower managed service and system sale contract revenues.

The group's sales mix in Q1 2026 showed a decrease in the proportionate contribution of revenue of a recurring nature, with revenue from managed service contracts representing 48.9% of the group's total revenue in Q1 2026, compared to 68.9% in Q1 2025. This shift was mainly due to a 121.3% improvement in system sale contract revenues of Unifiedcomms, from S\$1.116 million in Q1 2025 to S\$2.47 million in Q1 2026.

##### *Gross profit and gross profit margins*

The group posted gross profit of S\$2.673 million in Q1 2026, an increase of 33.1% from the S\$2.008 million recorded in Q1 2025. The increase in group gross profit for Q1 2026 is due to the flow-down effect of higher group revenue. Gross profit margin was however slightly lower at 55.2% as compared to 56% in Q1 2025, caused by lower gross profit margin on system sale contract revenues.

The gross margin on system sale contract revenues decreased to 51.1% in Q1 2026, compared with 70.5% in Q1 2025. This was mainly attributable to a lower gross profit margin recorded by Unifiedcomms on its system sale contract revenues, arising from higher third-party component costs.

This impact on system sale contracts' gross profit margin was partly mitigated by higher gross profit margin recorded on the group's managed service contract revenues, which increased to 59.5% in Q1 2026 from 49.4% in Q1 2025. This was primarily due to a lower revenue contribution from certain lower-margin managed service contracts, as well as reduced third-party component costs in Q1 2026.

##### *Interest income*

The group recorded interest income of S\$0.023 million in Q1 2026, slightly higher than the S\$0.016 million recorded in Q1 2025.

##### *Other gains and other item of expense*

The group recorded net total expenses of S\$2.546 million in Q1 2026, representing an increase of 11.4% from S\$2.285 million incurred in Q1 2025. This increase is mainly attributable to:-

- \* Higher overall operating expenses as a result of higher payroll related cost; and
- \* Higher net foreign exchange loss, resulting from unfavourable exchange rate movements of MYR against SGD, the group's reporting currency.

##### *Net profit/(loss) and EBITDA/(LBITDA)*

The group recorded a net profit of S\$0.062 million and EBITDA of S\$0.317 million in Q1 2026, compared with a net loss of S\$0.332 million and LBITDA of S\$0.084 million in Q1 2025. The improvement in Q1 2026 is mainly attributable to the effects of higher revenue, partly offset by lower gross profit margin and higher net total expenses.

## **2. Review of performance of the group (continued)**

### **2.2 Review of the group's financial position as at 31 March 2026 as compared to the group's financial position as at 31 December 2025**

Non-cash current assets of the group increased from S\$9.884 million as at 31 December 2025 to S\$10.345 million as at 31 March 2026, representing an increase of 4.7%. This was mainly due to an increase in other non-financial assets, which comprised the contract assets. The increase of such assets is attributable to the improvement in revenue.

Total non-current assets of the group increased from S\$11.772 million as at 31 December 2025 to S\$11.831 million as at 31 March 2026 representing a marginal increase of 0.01%.

Total liabilities of the group increased from S\$4.006 million as at 31 December 2025 to S\$5.824 million as at 31 March 2026, representing an increase of 45.4%. This increase was primarily due to higher other non-financial liabilities, which comprised costs related to those uncompleted revenue projects, corresponding to the higher cost of sales incurred during the quarter.

### **2.3 Review of the group's cash flow for the quarter ended 31 March 2026 as compared to the corresponding quarter ended 31 March 2025**

The group recorded net cash flow from operations of S\$1.728 million in Q1 2026, compared with S\$1.609 million for Q1 2025. The positive cash flow from operations is primarily attributable to a net profit of S\$0.062 million for Q1 2026, in contrast with a net loss of S\$0.332 million for Q1 2025.

The group recorded net cash flow used in investing activities of S\$0.182 million in Q1 2026, compared with S\$0.098 million in Q1 2025. The higher net cash used in investing activities was mainly due to the higher investment in plant and equipment for new managed service contracts made in the Q1 2026.

The group recorded net cash flow used in financing activities of S\$0.107 million in Q1 2026, flat against what was recorded in Q1 2025.

## **3. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results**

No profit forecast has been issued for the financial period under review.

## **4. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

The outlook for Unifiedcomms and GlobeOSS is showing early signs of stabilisation in the first quarter of 2026. While margin compression and execution risks associated with certain newly awarded system sale and managed service contracts persist, the group is beginning to see traction from recently secured orders and a strengthening sales

The business continues to make steady progress on existing contracts, alongside ongoing initiatives to improve service delivery, enhance operational efficiency, and maintain cost discipline. At the same time, Unifiedcomms and GlobeOSS remain focused on advancing product innovation and expanding market reach to support more sustainable growth.

At Captii Ventures, the group's venture investment arm, the investment environment remains muted, though there are tentative signs of improving sentiment in certain segments.

Supported by operational and financial strengthening initiatives implemented since 2024, the group remains cautiously optimistic about its performance trajectory for 2026.
